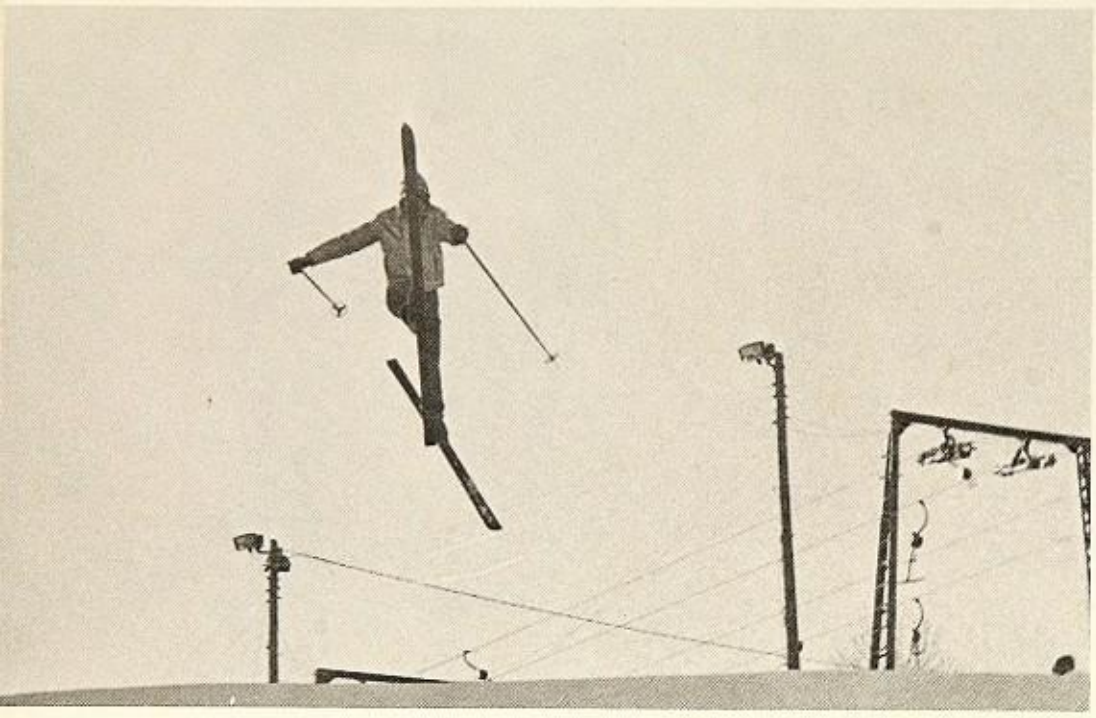
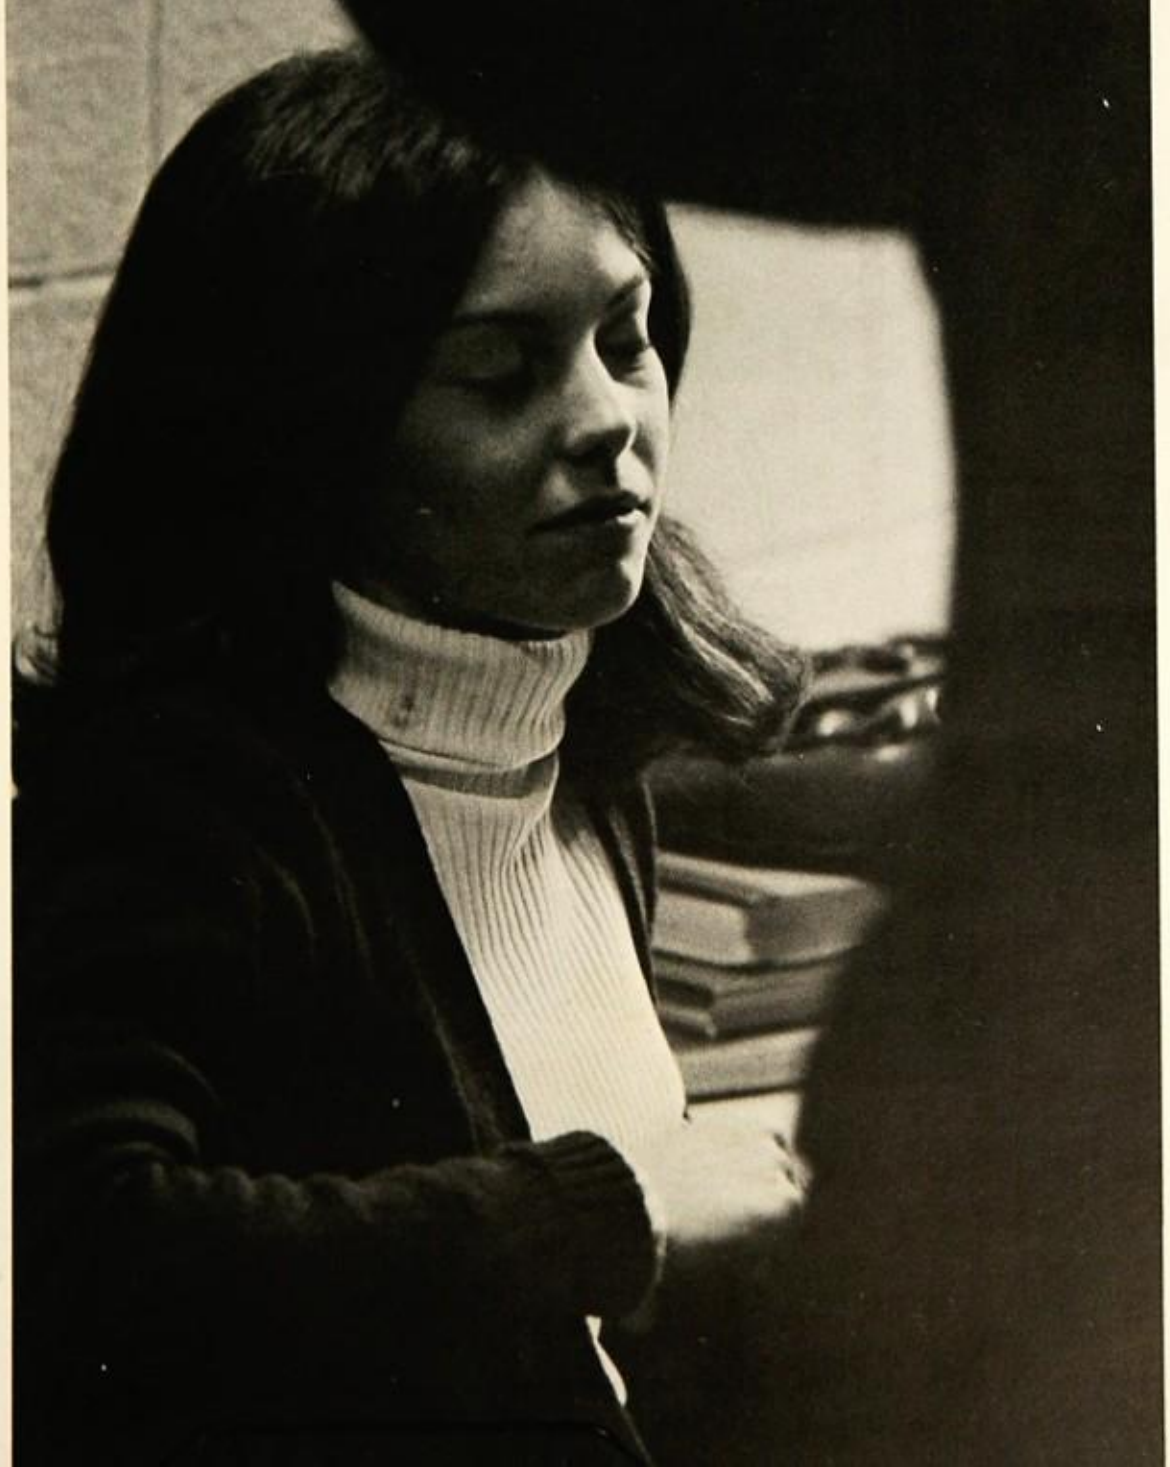
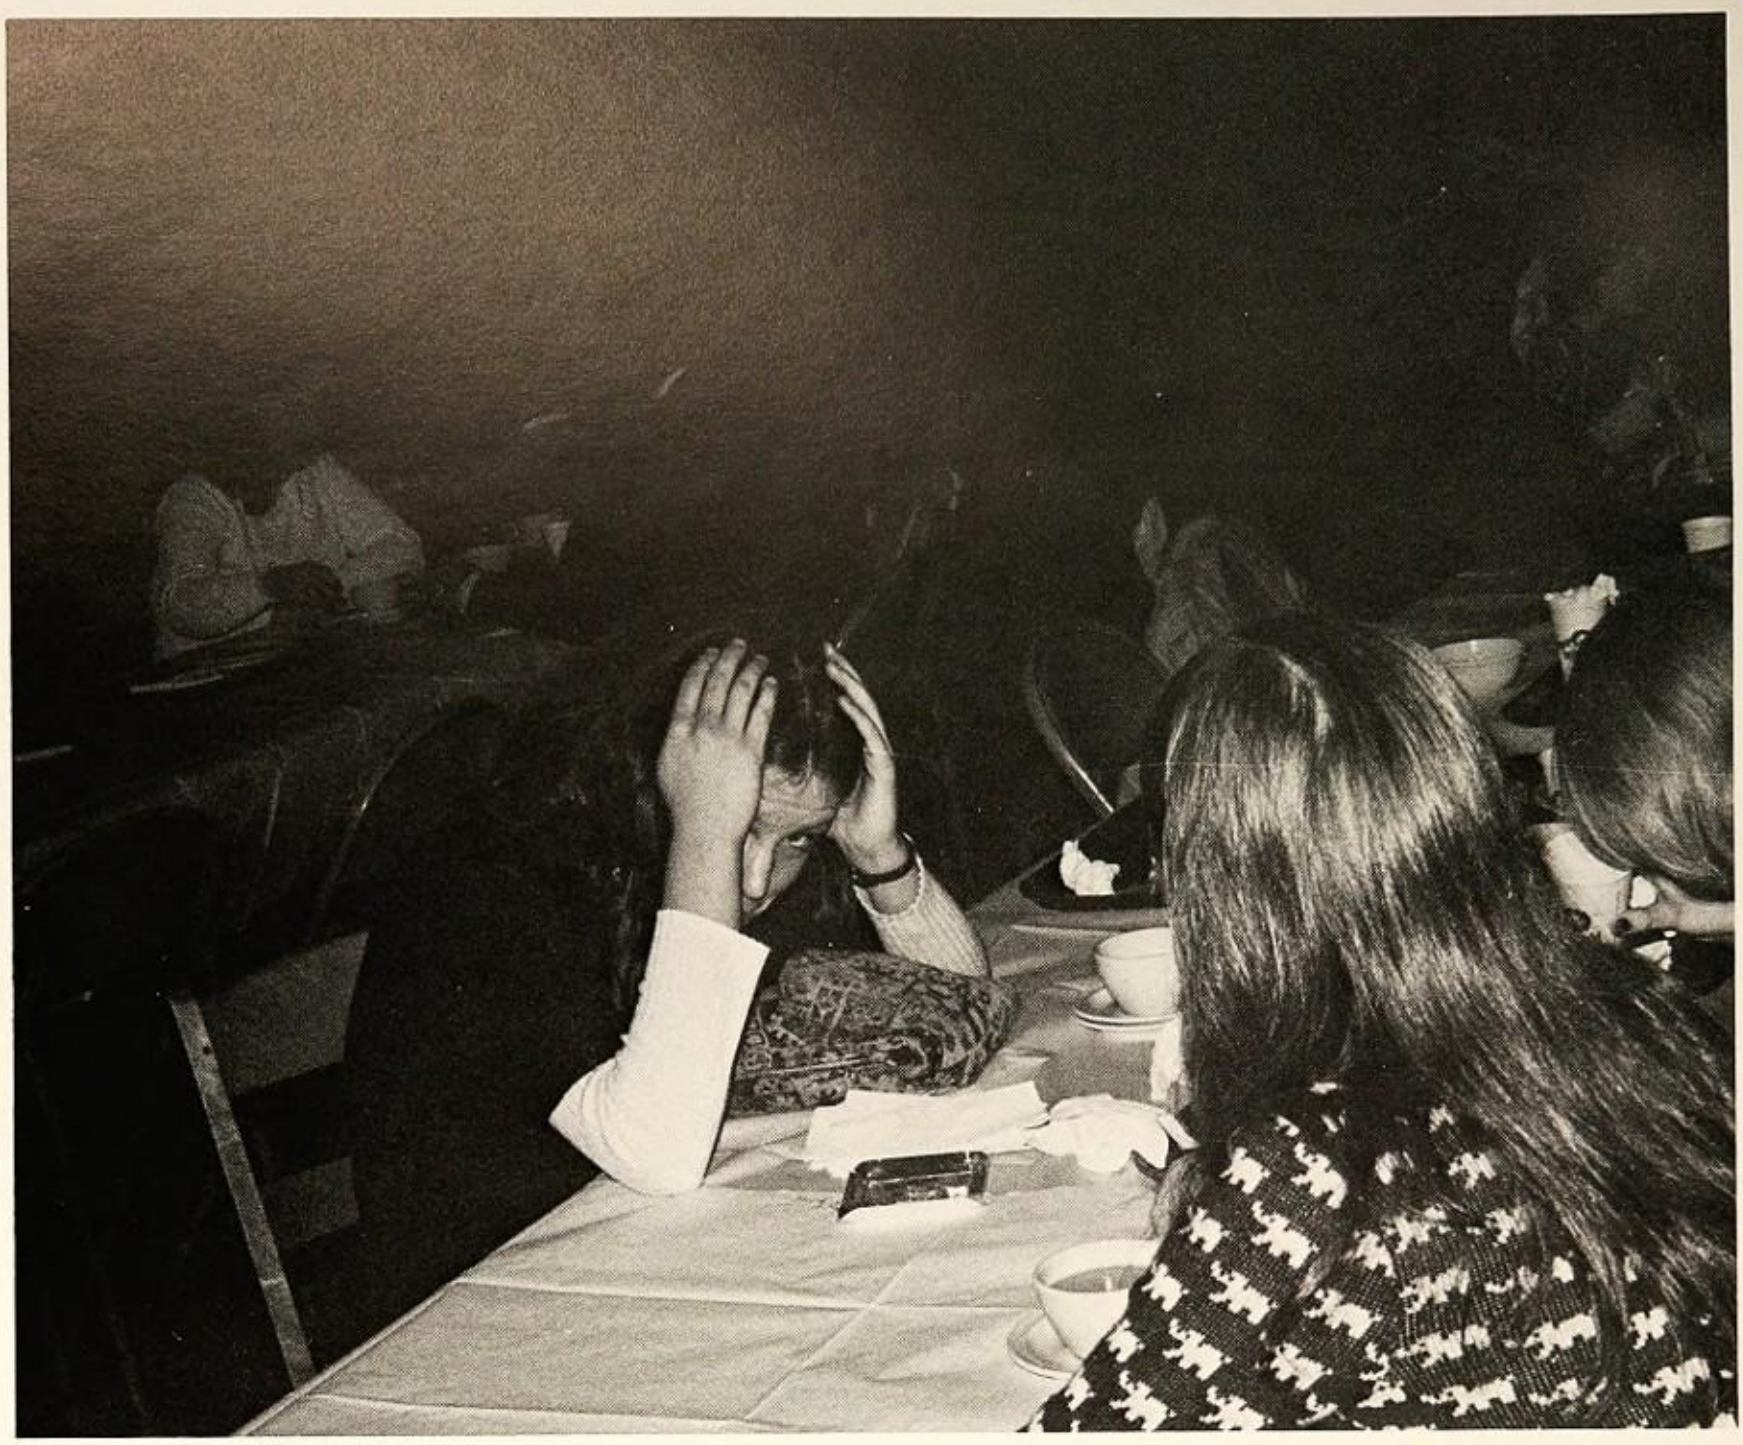
CHRONICLE 1974

Southington
High
School
Southington,
Connecticut





Let us build our lives so that
our hearts will be clear,
Let us set our goals high
and always seek the truth,

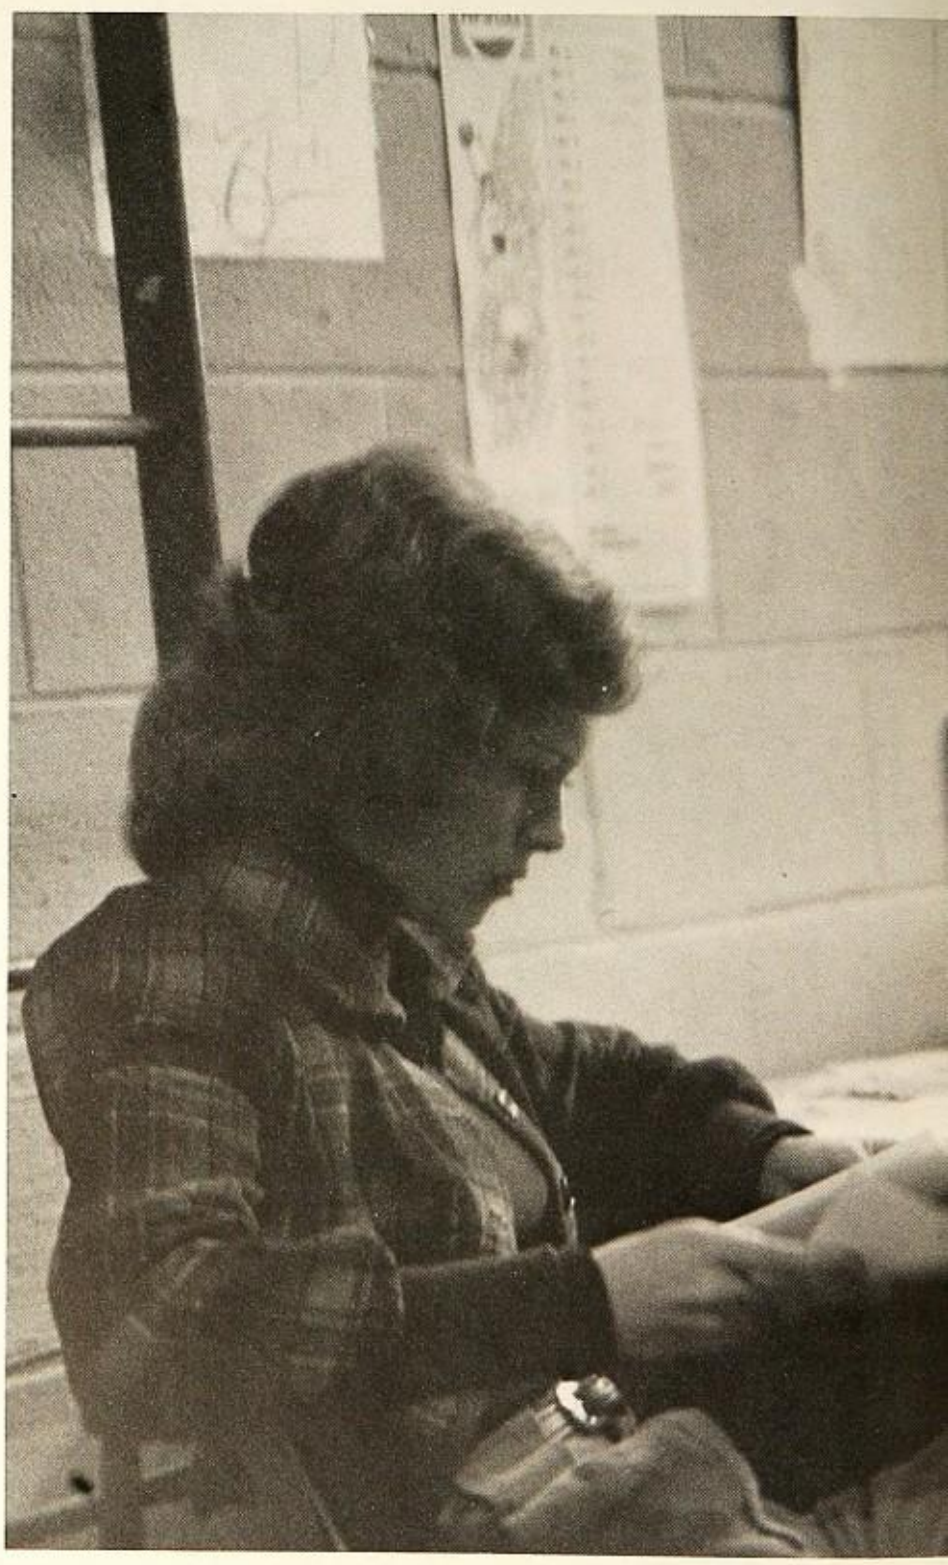


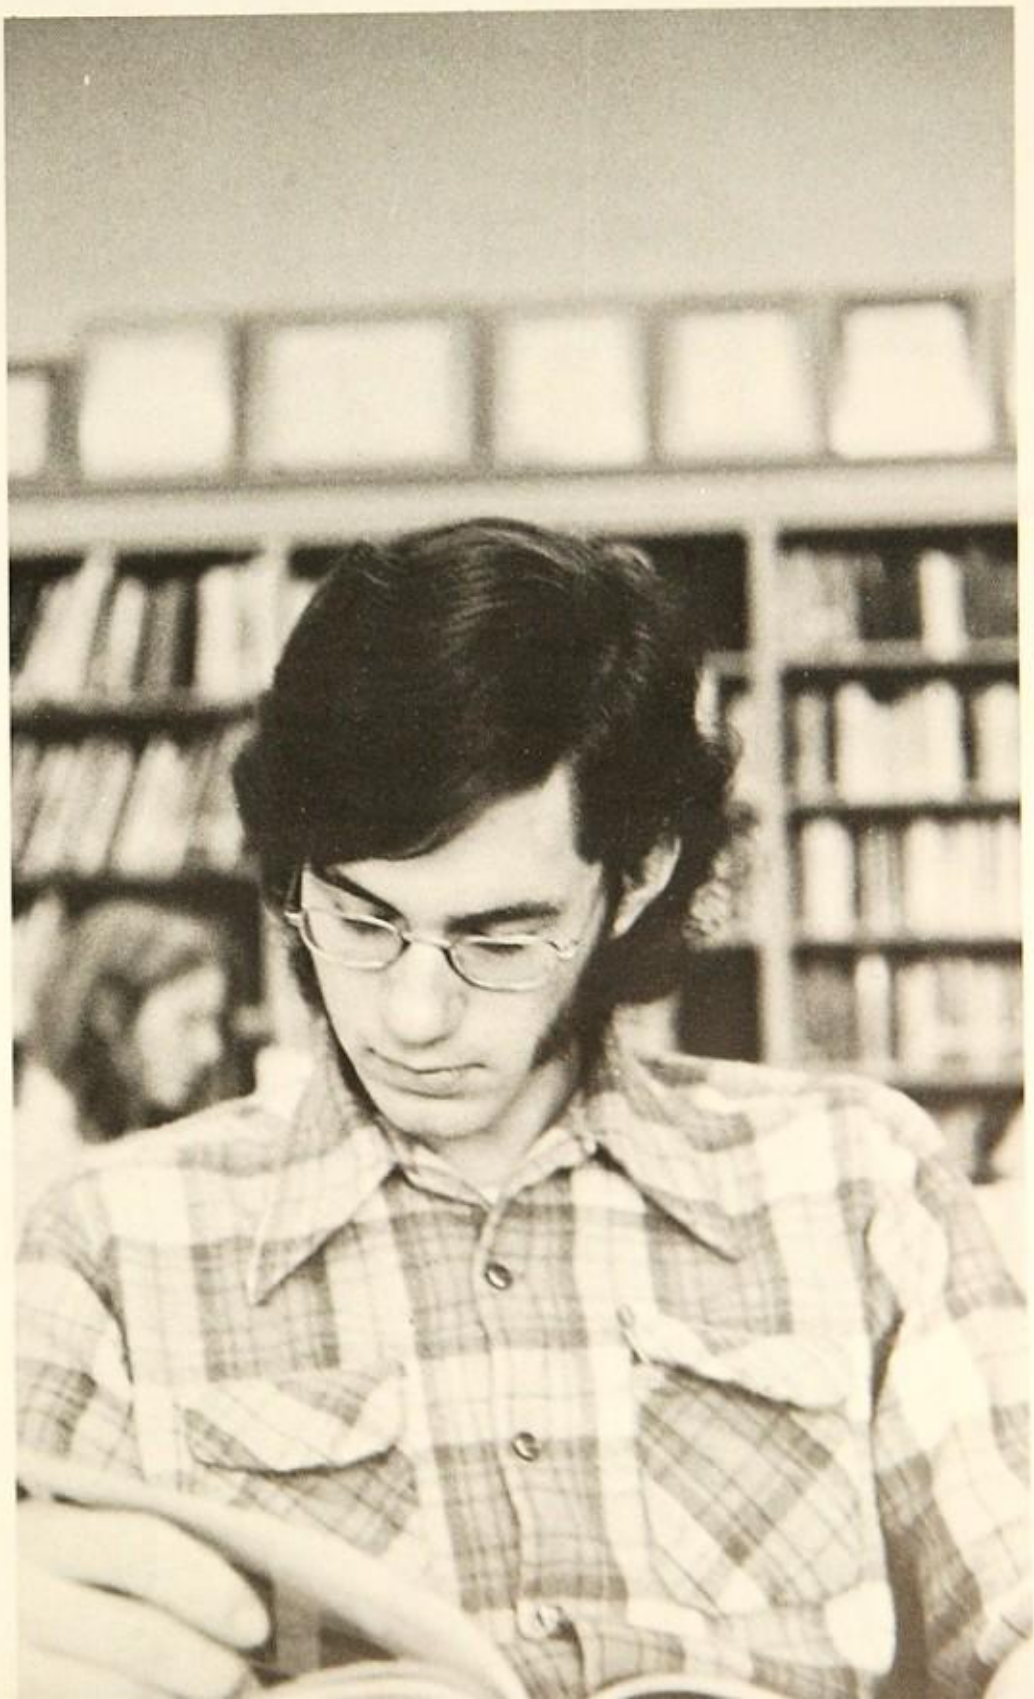
ATTENDANCE OFFICER

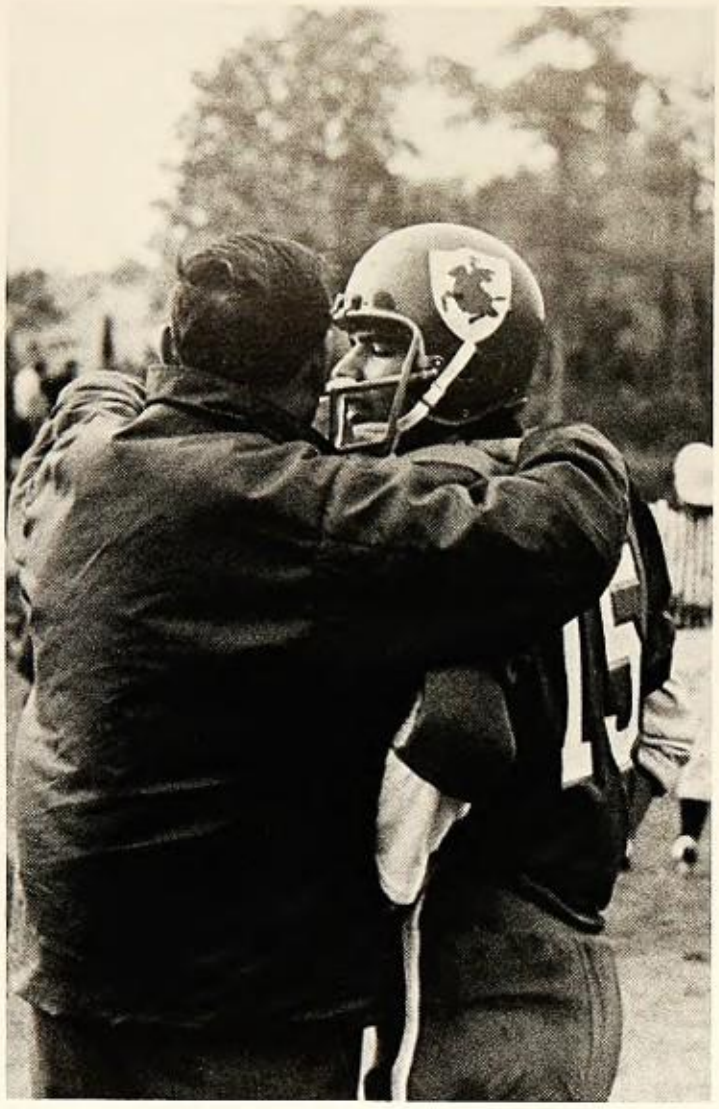
MR. G SCHNITMAN

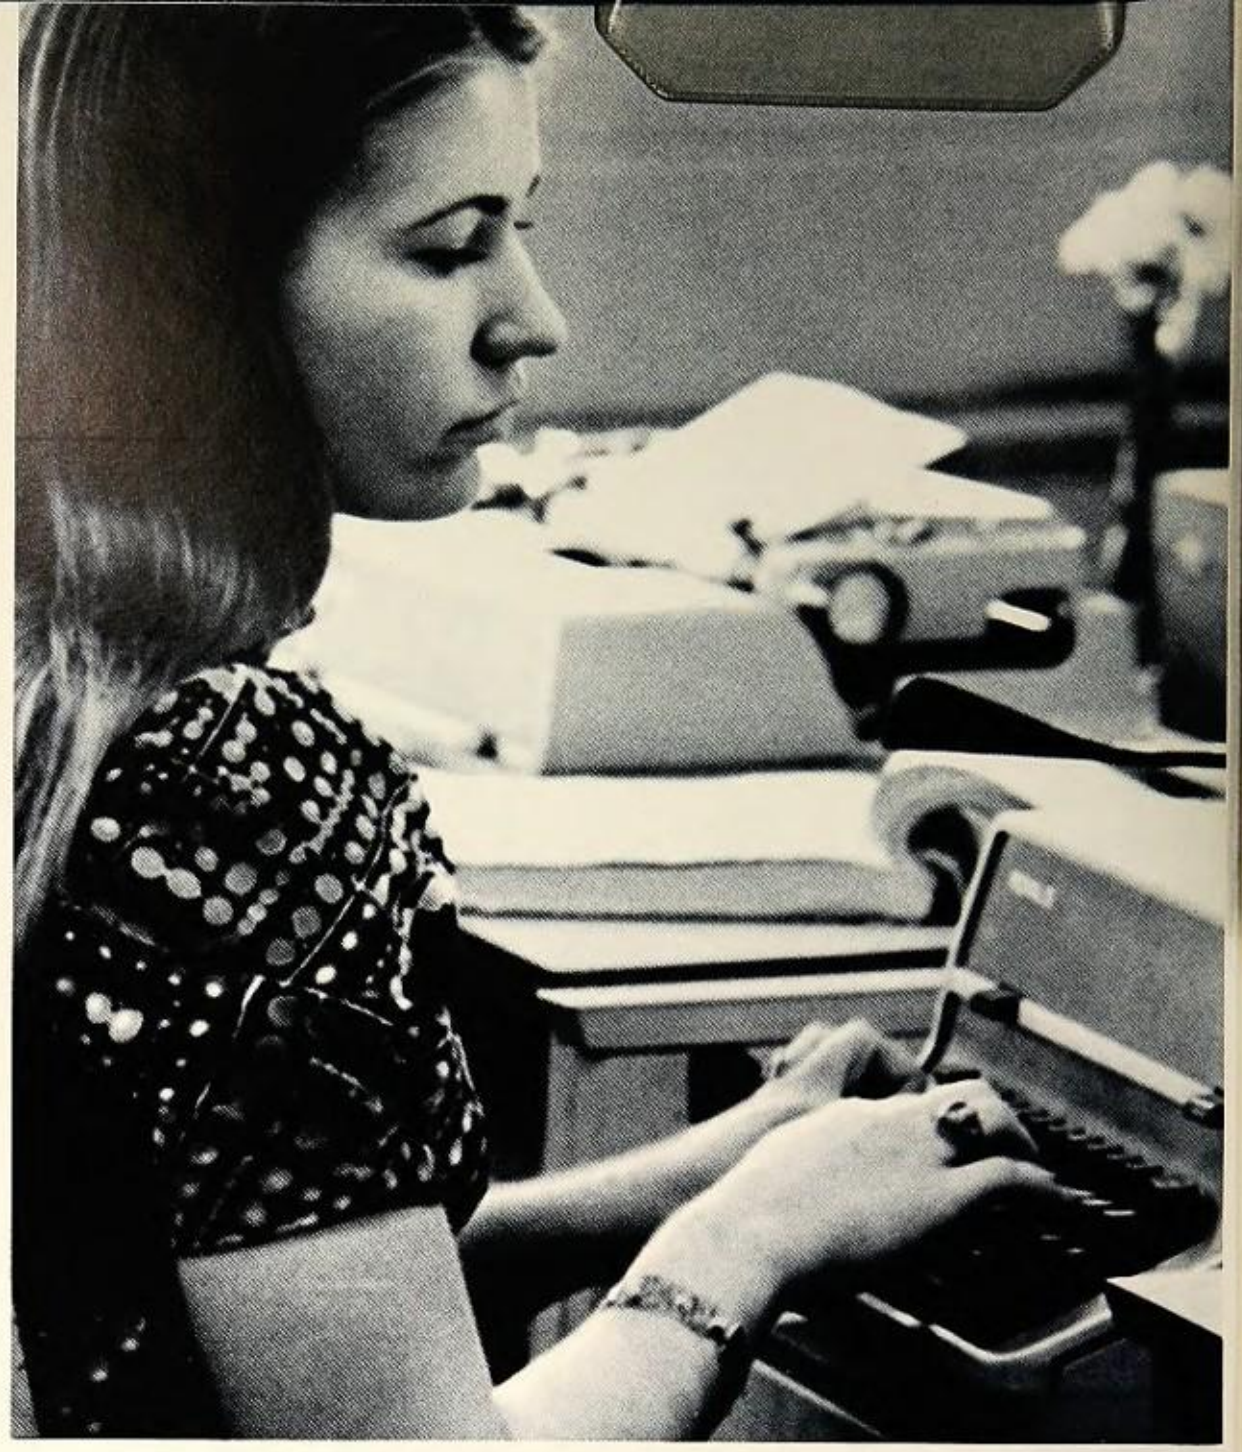
Let us be strong enough to
know when we are weak,
and brave enough to face
ourselves when we are afraid.

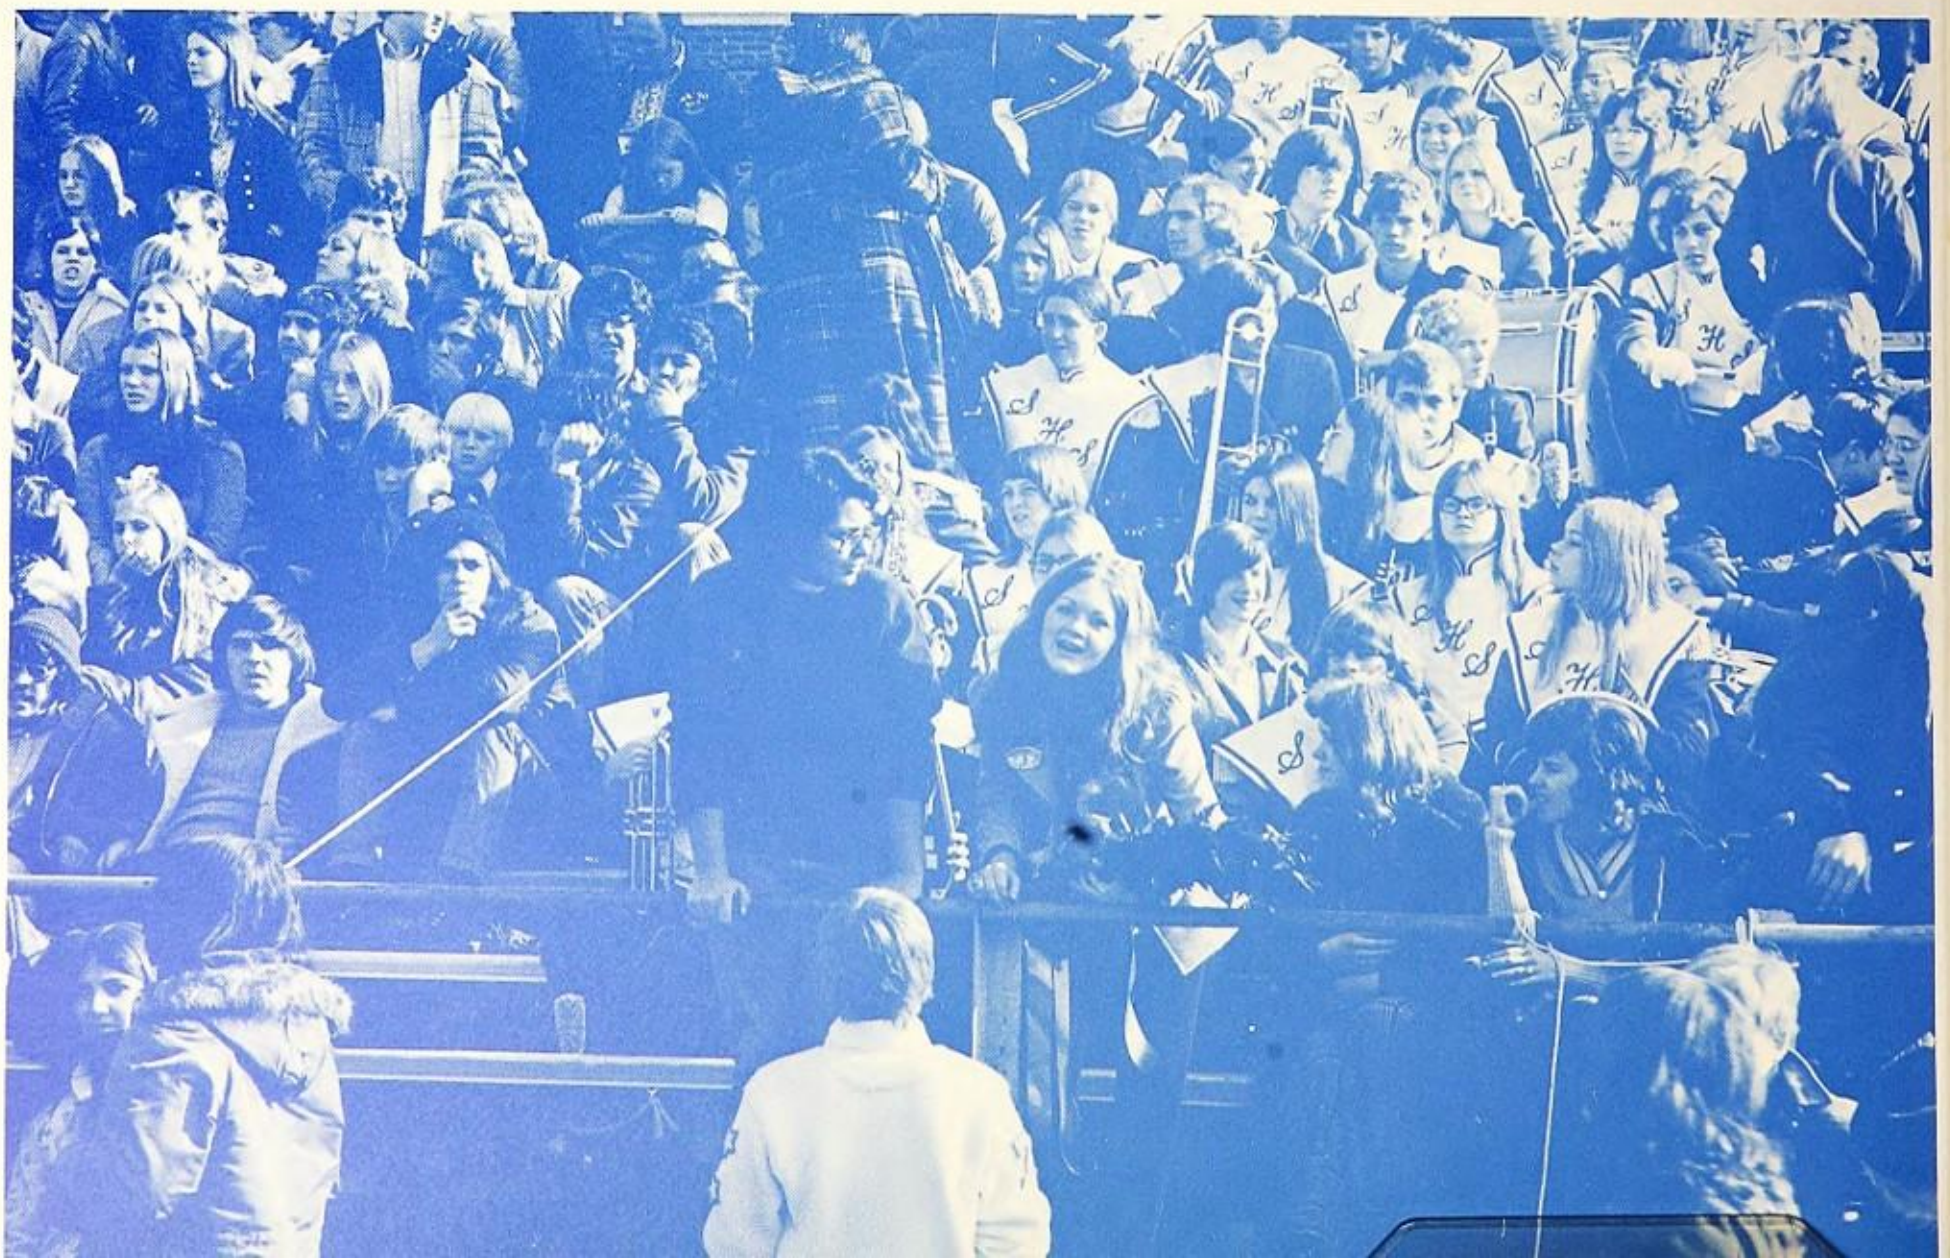
In every moment of life
let us be sensitive to others touch,
receptive to wisdom,
understanding toward suffering
and unenvying of success.



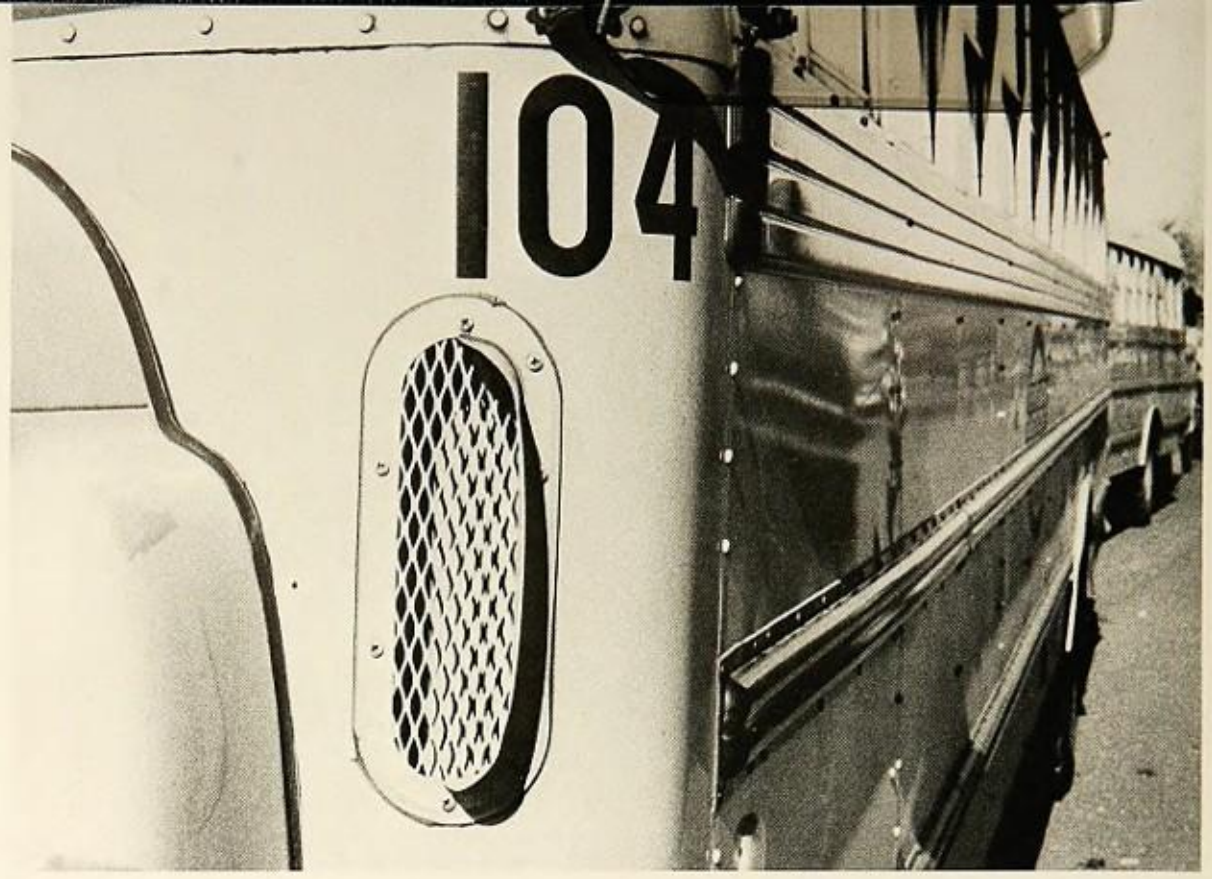




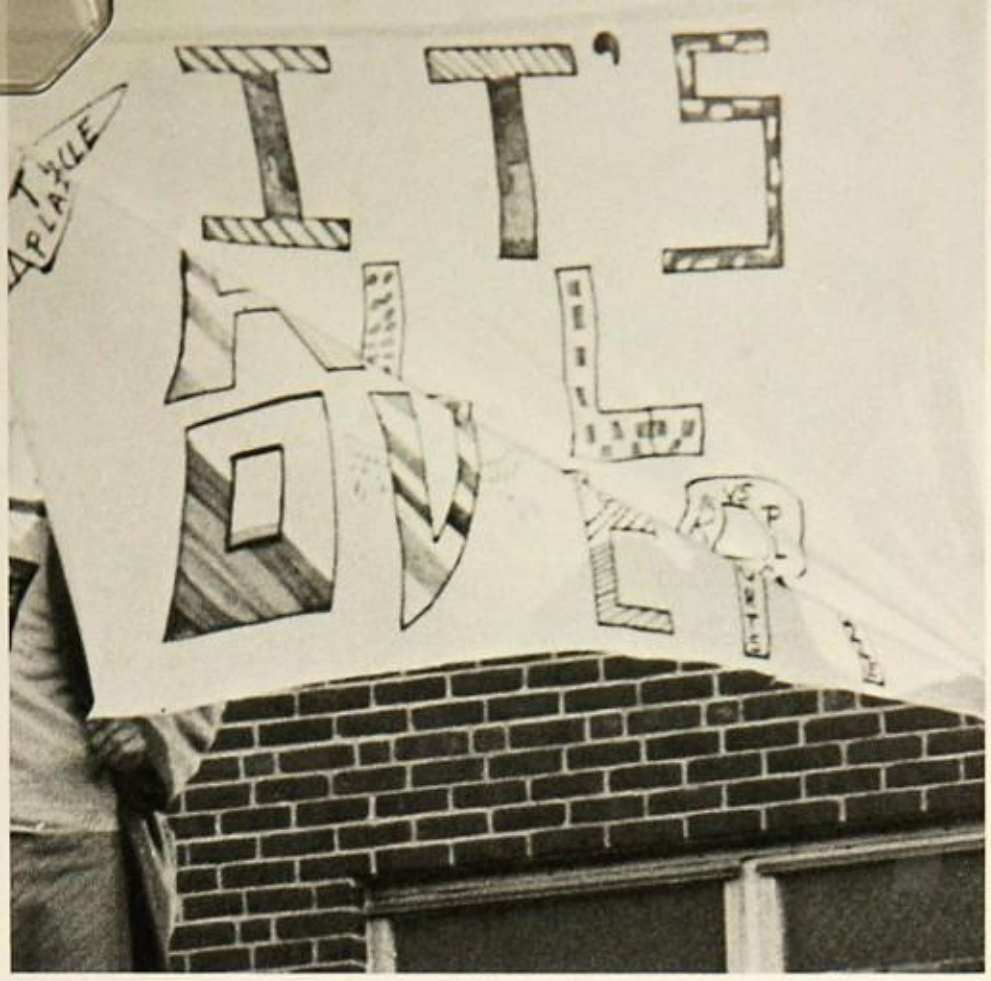




Let us be serious, yet have enough
sense of humor to never take ourselves too seriously.
Let us remember how to laugh,
yet never forget how to weep.



104



Let us reach into the future,
yet never forget the past.

Let us love,

for love . . .

is everything.

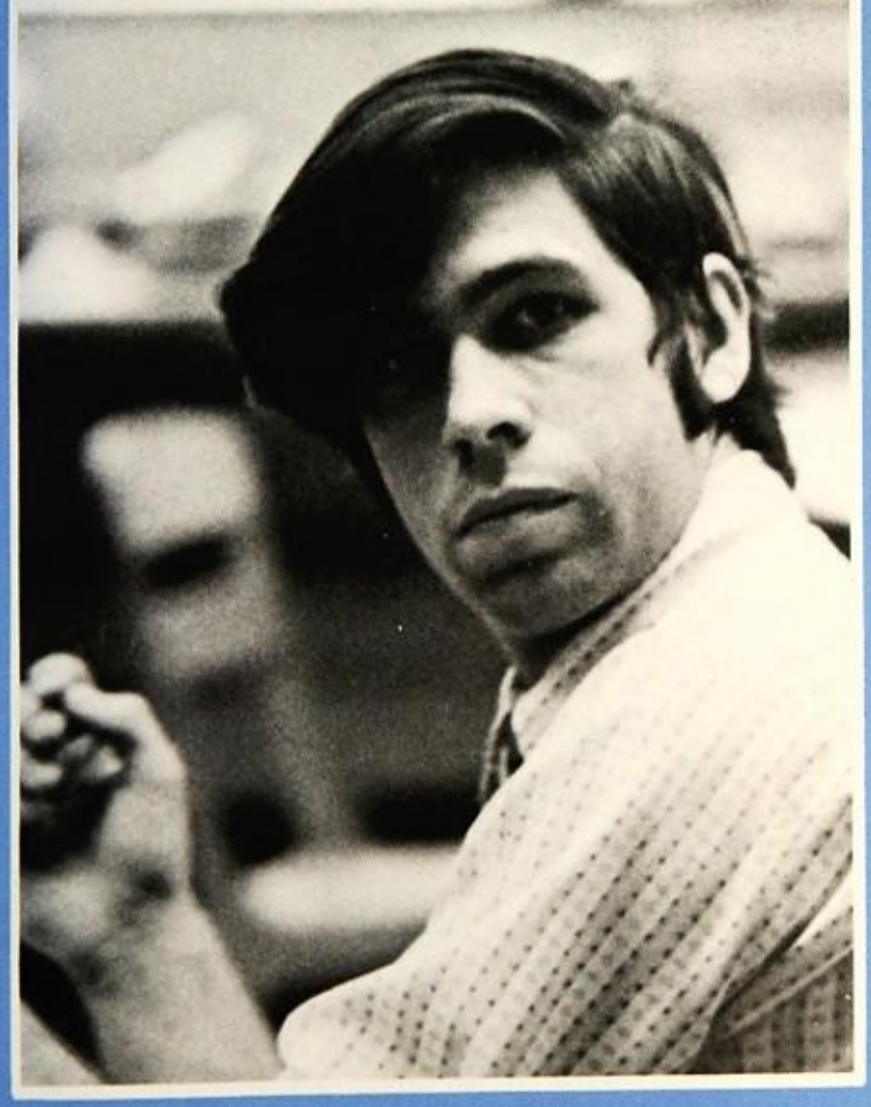
To Our Class Advisors:

Miss Maryann D'Angelo And Mr. David Pendell

The Class of 1974 wishes to extend our sincere appreciation for the help, time, and devotion you have extended toward us. The two of you have made our stay at Southington High School worthwhile and properous through planned activities and our learning experiences.

In the years to come, you will be long in our memories and we hope you prosper.

The Class of 1974



FACULTY

And what of knowledge? Where does one acquire this? From those who have learned and are ready to pass it on . . . to the minds who have not yet received, what so many people long for . . . the gift of knowledge . . . and the ability to teach as you once had to learn . . .

SENIORS

What will we have, once we look back upon
these years? What will come floating into
our minds and leave us gently because we no longer
live in those days, with all the memories;
all the living and loving that seemed so important
and worth our greatest efforts? Well, that's
tomorrow . . . and we don't have to think about it,
if we choose not too. Be happy now because
somehow counting too much on tomorrow is losing
everything today.

Time has brought us a long way and it brings to us a goal well deserved . . . graduation. When we met as sophomores, we organized into a class. We studied as individuals and worked together as a class. And we worked, experienced and learned all at the same time.

Now is the time that we must use all this knowledge and experience. We must use it hopefully, to not only benefit ourselves, but all those around us. For the future is in our hands. We can make it or break it. That to me is a great responsibility, a responsibility that we all have hoped and dreamed of obtaining. I hope we use this responsibility well, and I leave you with those thoughts;

"When the white eagle of the North is flying over-head
The browns, reds, and golds of autum lie in the gutter, dead:
Remember then, that summer birds with wings of fire flaying
Came to witness new hope, born of leaves decaying.
Just as new life will come from death, love will come at leisure
Love of love, love of life and giving without measure
Gives in return a wondrous yearn of a promise almost seen.
Live hand-in-hand and together we'll stand on a threshold of a dream."
("The Dream," by Graeme Edge)

Toni

"When I was a child, my speech, feelings, and thinking were all those of a child; now that I am a man, I have no more use for childish ways. What we see now is like the dim image in a mirror; then we shall see face to face. What I know now is only partial; then it will be complete, as complete as God's knowledge of me. Meanwhile these three remain: faith, hope, and love; and the greatest of these is love."

I Corinthians 13:11-13

Summer fifteen pounds plus. One great party. Somebody has got to buy this ticket. Hogfrey grabs the Mag. He's still breathing. Turn the lights on. Camp! Big fish? Minus ten pounds of summer. What do you call this boys? Frisk him. Sixty-two cups? Was that a few seconds of groovyness? When the cats are away . . . You told him that it was mine? Leave me on the lawn? Never again. Car has a funny smell, Broth. Why's that? We'll begin at my house. Number 7 and still going. Then what happened? I did?

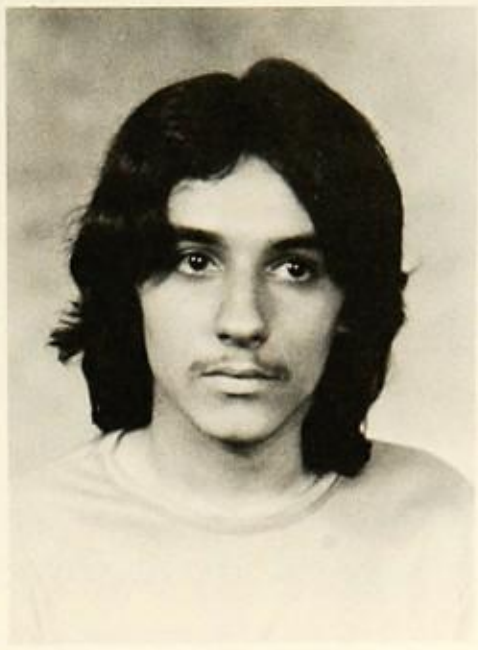
"Zappa"
To whom it may concern: I feel sorry for all the kids of today because they have to go to school everyday. To learn what the teach thinks is right."and to top it off" have work at night. I feel sorry for the future generation they should put in their resignation. Because of the future frustration of the administration!
P.S. Good Luck fellow students and am I ever glad that this is the END!!!



Lorraine Mastrianni

"How many years can a mountain exist, before it is washed to the sea;
How many years can some people exist, before they are allowed to be free;
How many deaths will it take till he knows that too many people have died;
THE ANSWER MY FRIEND IS BLOWING IN THE WIND."
B. DYLAN

To our Advisor: Mr. Dom Giallello,

It is with feeling and gratitude that we express our sincere thanks for the assistance you have given us this year. Without your guidance, we would surely not have been able to accomplish our goal of completing this yearbook, but, with your patience and understanding, we have accomplished our task. Most of all, you were there when we needed you.

Thank you

Auf Wiedersehen

The Chronicle Staff of 1974

UNDERCLASSMEN

How many times does one want
to do something that only time will
accomplish? . . . BE PATIENT . . . Tomorrow
will come all too soon and those who
dreamed of fulfilling their ambitions will
have to decide quickly what course
to set their aims upon . . . because
today was that yesterday, and tomorrow
will be here, and nothing will be
accomplished after all . . .

To the Class of '74 —
"When you part from your friend, you grieve not;
For that which you love most in him may be clearer
in his absence, as the mountain to the climber
is clearer from the plain.
And in the sweetness of friendship let there be laughter,
and sharing of pleasures.
For in the dew of little things the heart find its
morning and is refreshed."

To the 1974 Chronicle Staff:

At this moment the co-editors wish to pause and thank-you. Your help and cooperation has helped to make our yearbook a success. The afternoons we spent after school in confusion will not be remembered when our book comes out, only the hard work and determination that was shown by all. The end is near so this message will be ended here; Thank-you one and all!
